

TUFPORT UTILITY FOR WORK

TRANSFORM YOUR TRUCK INTO THE ULTIMATE WORK-READY TOOLBOX

▲ T60 shown with 60/40 split rear door

Tufport industrial grade slide-in units are the superior alternative to traditional truck canopies and commercial vans.

Compared to other conventional options, a Tufport Utility offers added storage, enhanced security and a more organized workspace—increasing your productivity and lowering costs.

You can trust your Tufport to withstand the pounding and jarring of even the toughest daily grinds, and provide unrivaled value today and for years to come. Our commitment to building the world's most durable, longest lasting slide-in units means that every Tufport we make is designed to outlive any pick-up truck on the market today. All of our units are available with a wide range of optional features that lets you customize your Tufport, whether it's work or play.

We're confident that the Tufport For Work slide-in units are rugged enough not only to outlast our competitors but also to outlive any truck on the market.

Built Tough. Built to Last.

DESIGNED TO FIT YOUR TRUCK. BUILT TO FIT YOUR NEEDS.

With our universal fit, Tufport industrial grade slide-in units are engineered to fit into the bed of any make of full or mid-size truck bed. No matter how many different trucks you drive, you will keep your Tufport slide-in.

Tufport's industrial grade doors address what has been traditionally the weakest link in the manufacturing of truck slide-units by designing new doors for improved security.

Every Tufport Utility incorporates Fibermold Technology, resulting in a rugged, light-weight fiberglass unit. Using a variety of advanced composite materials in stress-critical areas such as mounting rails, sidewalls and corners, ensures our units can endure the punishment inflicted by even the most intense daily routines. We also employ a high gloss mold coating to give our units a "Mega Yacht" level of quality and performance, protecting our units from fading and osmosis. Tufport units are outfitted with commercial grade stainless steel fasteners and hardware to prevent corrosion and wear.

STANDARD FEATURES

- Built with Fibermold technology
- Some models are available in short or long box
- Single rear door
- Composite laminate construction
- Overcab extension
- "Mega Yacht" quality gelcoat
- Stainless steel fasteners and hardware
